

Hide report - cattle

Market information provided by MLA's National Livestock Reporting Service

report date 20 Jul 2007

Hide prices were weaker across the majority of categories in a continuation of the weaker trend which has emerged since the beginning of winter. The heavy end of the market which competes with hides from the US has had the largest reductions in price.

The increased value of the A\$, the European holiday period and lower demand from Asia continues to hamper the market.
