We appreciate your feedback to ensure that the information presented is applicable to your farming operations or clients.

1. Please tick the most appropriate response

	Strongly agree	Agree	Neutral / don't know	Disagree	Strongly disagree
The P tool booklet is easy to follow					
The calculation tools are easy to follow and understand					
I understood what input data was required					
The calculations from the tool were "sensible"					
The Five Easy Steps tool has changed the way I think about my P-fertiliser use					
Would using the tool in a group situation be useful?					

2. If you "disagreed" with any of the above statements, please tell us what the main issue(s) were:

3. What was the most challenging section when using this tool and booklet?

4. What calculations did not seem appropriate for your soil type? (Please identify your region and soil type)

5. Was the calculation of carrying capacity at optimum soil fertility reasonable for your farm/soil?

6. What changes are required to improve clarity and fit of the tool in your area?

7. If you would like a response to any of your comments please provide your contact details below:
