

## Store Report - Cattle

Market information provided by MLA's National Livestock Reporting Service

Dubbo		report date	18/06/2021
Yarding	600	comparison date	04/06/2021
Change	333		

A few showers of rain over the past couple of days impacted numbers on the expected draw. There was a good supply of quality cows and calves along with some good pens of quality weaners. There were a couple of pens of quality dry cows along with a consignment of very plain quality cows originally sourced from the west. There was a good crowd on hand with the bulk of support coming from locals along with support from the Central Tablelands and Coonamble. The market remained strong in all sections.

Steer weaners sold from \$635 for plain Shorthorns to \$1,710/head for top quality Angus steers. The better quality steer calves all averaged from 630c to 775c while the plainer quality calves averaged from 430c to 545c/kg. Two pens of steer yearlings sold for \$1,600 and \$1,800/head. Heifer weaners sold from \$600 for Brahman cross calves, to \$1,660/head for locally bred Charolais Shorthorn cross heifers. PTIC heifers sold from \$1,700 for Santa Gertrudis heifers to \$1,800/head for good quality Charbrays.

The best of the cows and calves were a line of locally bred top quality Shorthorn units which sold for \$3,500/unit. The balance of the cows and calves sold from \$1,930 for Bos Indicus cross units to \$3,300/unit for good quality Angus cows and calves. Two pens of PTIC Angus cows sold for \$2,200 and \$2,390, while dry cows sold from \$520 for crossbreds, to \$1,575 for quality Angus cows.

Market Reporter, David Monk.
