

More lambs from ewe lambs

PDS Updates webinar series

 **6 March 2026 | Time 12pm AEST**

 **Online webinar**

Please register by 9am AEST to receive the access link for this webinar

Unlock the latest insights to boost ewe lamb performance and on-farm results

1hr lunch-time webinar

Join us for a practical session exploring the newest research, PDS findings and on-farm experience to help producers lift conception, lamb survival and whole-flock performance when joining ewe lambs.

You'll gain evidence-based targets, management tips and real-world examples you can apply immediately.

What we'll cover

- Key joining targets and liveweight benchmarks for ewe lambs
- New research refining weight-for-age guidelines
- Best practice management for breeding ewe lambs
- On-farm results and learnings from the More

Lambs from Ewe Lambs PDS

- Practical steps producers are taking to improve outcomes.

Why attend?

- Hear directly from researchers and producers
- Access tools and insights to support on-farm decision making
- Learn what's working in commercial operations right now
- Build confidence applying best practice when joining ewe lambs.

Key speakers

- Jason Trompf, JT Agri-Source[
- Andrew Hunter from 'Hills Park', a commercial sheep producer from Yerong Creek NSW
