

Transitioning to Non-Mulesed Sheep

Production Demonstration Site - Field Day 2023

 **16th June 2023** | Time: 8:30am – 12:30pm

 **'Summerhill', 3611 Murringo Road, Young, NSW, 2594**

Producer Demonstration Site (PDS)

MLA's PDS program supports producers to adapt, validate and demonstrate the business value of integrating new management practices and skills into their local farming systems.

'Transitioning to Non-Mulesed Sheep' PDS is designed to support sheep producers with the transition to non-mulesing by developing a 5-year transition strategy, using tools and resources available and peer to peer learning.

Topics to be discussed and demonstrated

- Project Information & PDS result updates
- Use of Electronic Identification and data capture
- Demonstration #1 – Dag & Urine Scoring
- Demonstration #2 – Breech & Body Wrinkle Scoring

Producers will be provided with the opportunity to discuss and learn how to perform the techniques of dag scoring and urine scoring as well as off shears body, neck and breech wrinkle scoring. These are techniques which can allow for benchmarking tracking the flocks progression during the transition towards non-mulesed.

Lisa Warn Ag Consulting Pty Ltd

 **SheepMetriX**

This event is funded by Meat & Livestock Australia with the support of SheepMetriX and Lisa Warn Ag Consulting.
