Virtual field day

Fertiliser 2023: Getting bang for your buck

A Producer Demonstration Site event – Growing more winter pasture

WHEN Tuesday 15 November 2022 | 7:00pm to 8:30pm

What do you need to do?

STEP 1 Register here: attendee.gotowebinar.com/register/459948131148015376
(30 seconds)

STEP 2 Complete the project survey: forms.gle/E7L1UgDjvSzGDxuQ9
(< 5 minutes)

MLA's PDS program supports producers to adapt, validate and demonstrate the business value of integrating new management practices/skills into their local farming systems.

Overview of the Producer Demonstration Site

- Demonstrate maximum pasture production achievable through winter
- Assess impact of fertiliser, soil ameliorants, grazing management and growth promotants
- Aiming to increase the carrying capacity and the profitability of the grazing system.

What's on the agenda?

- Update on managing soil acidity in pasture and mixed farming systems – [Dr. Jason Condon, Charles Sturt University](#)
- Fertiliser and lime 2023 – Supply chain outlook and considerations – **Presenter TBC**
- Overview the PDS objectives, sites and program, initial results for the Peddie's 2022 – **Peter Havrlant, Aggregate Consulting**
- The program at Cluan – the focus on stocking rate and grass growth – **James Peddie**
- 2023 fertiliser and lime program planning: a process based on needs, input values and alternatives; a cost benefit analysis - **Peter Havrlant, Aggregate Consulting**
