

Insect identification online workshop

 **Wednesday 23 August 2023 | 6:00 pm – 7:30 pm**

 **Online (via Zoom)**

Join Cesar Australia in this online workshop to learn about insect morphology, lifecycle, and the importance of correct identification for insect management.

This workshop is for growers and advisers to build their skills in identifying common pasture pests and beneficial invertebrates.

This interactive workshop includes activity sessions to practice identifying different insects.

In this workshop, you will be learning about:

- pest mites
- lucerne Flea
- aphids
- cockchafers

- beneficials and natural predators
- integrated pest management approaches.

For more information on insect identification visit the Cesar Australia website: cesaraustralia.com/pestnotes/
