Change -84

The last of Inverell's weaner sales for the year was held, with 2,600 head of weaner steers and heifers offered. Once again breed quality was very good, with Angus cattle in large numbers, along with a good supply of Santa Gertrudis, British and European cross weaners. Competition was very strong following good falls of rain in many areas from restockers, backgrounders and feed lots. Buyers attended the sale from Southern and Western NSW, and there was also strong buyer participation from Southern and Central Queensland.

Angus weaner steers ranged from 314c to 353c, while a good run of Santa Gertrudis steers sold from 320c to 338c/kg. British cross steers ranged from 291c to 341c, and European cross steers sold to a top of 320c/kg. In the weaner heifer portion the sale was very stable, with most heifers selling from 260c to 307c, for a sale average of 290c/kg. The steer sale average was 329c/kg.
