Market Development Partnerships Program

Guidelines for 2024-25

Updated: May 2024

1. INTRODUCTION

The Market Development Partnership (Program) is owned and operated by MEAT & LIVESTOCK AUSTRALIA LIMITED ABN 39 081 678 364 (MLA). The Program works with Australian red meat businesses and their customers to build and promote Australian red meat brands and to educate consumers and trade partners globally.

The purpose of the Program is to collaborate with Australian red meat businesses and their partners to:

- build awareness and preference to purchase Australian red meat products,
- create customer loyalty and sustainable brand growth, and
- align and leverage MLA's International Marketing initiatives.

Applicants are required to go to: www.aussiemeattradedhub.com.au, click on Market Development Partnerships program tab, log in with their myMLA account and follow the registration process.

2. ELIGIBILITY

The Program is open to Australian companies (with an ABN) who are:

- responsible for organising and paying for the marketing of Australian beef, veal, lamb and/ or goat; and
- an MLA member (levy-paying red meat producer) that are a licensed red meat exporter or processor.

All participants' brands must abide by applicable legislation (including labelling regulations), and ensure beef, sheep meat and goat meat animal-raising claims* can be substantiated.

* An animal-raising claim is defined by AUS-MEAT as follows: a claim made in the trade description or export documentation about the animal or supply chain specifically relating to animal husbandry conditions, feeding, handling, drug treatments, and/or geographical references.

3. MLA CONTRIBUTION

Effective from 1 July 2024, MLA's cash contribution will be up to 50% of the cost of an Activity for Retail/ Foodservice Promotions and Aussie Meat Academy activities, and up to 25% for Tradeshow activities. Each activity is subject to review by MLA management.

4. FUNDING CRITERIA

MLA will use the following criteria when assessing applications for funding:

- Potential growth in (or defence of) the value of sales of Australian red meat – such as a new customer or consumer segment, new market, or improved market share vs competitor in established market (e.g., pork, non-Australian red meat),
- Improvement in the position/reputation of Australian red meat – such as by building a stronger country of origin position, provenance perceptions or introducing an innovative or higher quality (e.g., eating quality graded) product,

- Likelihood of success (clear insight, strategy and post-evaluation metrics, evident capability to execute, a positive track record of return on marketing investment),
- Alignment to MLA's strategy and marketing initiatives such as the Aussie Meat Academy, category brand marketing, and trade shows,
- Funding request should be appropriate to the brand size and scale.

5. INDUSTRY PROGRAMS / PRODUCTS

THE AUSSIE BEEF, LAMB & GOAT BRAND

MLA encourages brand owners to utilise the [Aussie beef, lamb and goat brand](#) in export markets to underpin brand marketing activities. In most export markets, the country of origin is a first-order decision driver for red meat consumers and therefore, widespread use of the Aussie brand benefits the entire industry. The Aussie brand should be used to underpin private brands and can be subservient in placement.

Where the Aussie brand is not utilised to underpin a private brand, to be eligible to apply for Market Development Partnerships funding for export marketing activities, the activity must identify Australia as the country of origin and align with the desirable image of Australian red meat.

Participants must have an Aussie beef, lamb & goat brand license before use. Please apply at [Aussie beef, lamb & goat brand](#). Applicants who had a True Aussie licence before will need to reapply.

AUSSIE MEAT ACADEMY

MLA collaborates globally on a wide range of activities to help position Australian red meat and promote growth opportunities. The **Aussie Meat Academy** brings together MLA's work completed offshore for building knowledge, education, and inspiration in the food industry. This includes seminars, immersions, e-learning and activities under MLA's two international ambassador programs: Aussie Beef Mates and Lambassador.

MLA's international markets program will continue to place a strong focus on activities that build knowledge and inspire customers to choose Australian red meat in key markets around the world. Contact the relevant [MLA Regional Manager](#) (www.mla.com.au/about-mla/contact) on how to get involved.

MEAT STANDARDS AUSTRALIA

Participants are encouraged to underpin their eating quality credentials with Meat Standards Australia (MSA). For information about the MSA program, click here: [Meat Standards Australia | Meat & Livestock Australia \(mla.com.au\)](#).

To obtain an MSA brand license, click here: [MSA brand licence application](#).

VALUE-ADDED PRODUCTS CONTAINING RED MEAT

The value-added product must have a minimum of 80% (30% for meat pies) Australian red meat (and not contain any other meat products). Hybrid products (red meat + alternative proteins) will be considered on a case-by-case basis and must promote the product without any negative sentiment towards the red meat component.

6. ELIGIBLE ACTIVITIES

This list may be updated from time to time. The [Market Development Partnerships](#) website home page contains the latest version. If you are unsure as to whether a marketing activity is eligible, please consult with MLA and confirm prior to submitting the application for funding.

Market Development Applications must be submitted and approved by MLA **PRIOR** to the commencement of the corresponding activity.

Activities without an approved activity application that are already underway will NOT be eligible.

MLA will not accept Market Development Applications for an activity where the Anticipated Activity Cost is less than AUD 5,000.

This list provides companies with a guide as to the type of activities that are eligible and the activities that MLA will not co-fund.

Eligible marketing activities in international markets include:

- trade shows - MLA solely offers assistance via MDP for trade shows where centralised industry representation by MLA is not established. At select trade shows, including but not limited to Gulfood (UAE), Food & Hotel Asia (Singapore), SIAL China, Anuga (Germany), and the Supermarket Trade Show (Japan), MLA extends support to Australian exporting companies by providing subsidised booth space. To discuss your participation at an industry stand, contact tradeshows@mla.com.au;
- retail promotions - MDP funds for sampling activities will be preferentially directed towards launching:
 - existing products to new retail customers
 - new products to existing retail customers ;
- foodservice promotions; and
- education/training seminars under the Aussie Meat Academy banner (including Aussie Beef Mates and Lambassador activities).

MLA's contribution towards an activity will depend on a range of factors such as value for the Australian red meat industry, budget available and distribution of funds amongst eligible activities.

Activities that are everyday business operational marketing expenses and/or more aligned with promotion of the applicant's business (as opposed to Australian beef, lamb or goat meat) are not eligible.

Businesses that are eligible for Austrade Export Market Development Grants (EMDG) should not apply to the Market Development Partnerships program. The EMDG provides funding for a much broader scope of export business and brand development activities.

If the applicant obtains funding from another organisation for an activity, the funded amount will need to be declared in the submission for MLA funding.
