1 Introduction

The Meat Standard Australia (MSA) Standards Manual is divided into a number of sections. Each section is a standalone document that is issued and amended independently of each other section.

Australian Meat Industry Language and Standards Committee (AMILSC) are custodians of the Meat Standards Australia (MSA) Standards (refer to Section 1: Foreword and Introduction, page 3).

This section outlines the livestock supply requirements for MSA.

All sections of the Meat Standard Australia (MSA) Standards Manual must be used collectively. Certain sections may not be applicable for a specific business, operation, facility or activity. It is the user's responsibility to determine and justify why a sections does not apply.

1.1 Instructions for control of this document

This Standards Manual, available online from MSA, is a controlled document.

Updates to this Standard will occur from time to time. All printed and/or saved copies are uncontrolled and may not be the latest version.

1.2 Owner confirmation

The owner or controller, as registered with the Authorised Authority, shall be informed of any updates relating to the information contained in this Standard. Attached to any updates regarding this Standard will be a form for notification of changes to the owner or controller of the Standard.

1.3 Amendments and updates

Amendments to this standard will be issued by way of a formal amendment notification where required.
