

The LPA NVD is a vital part of your business - make sure it is complete and correct

Who is responsible for completing the LPA NVD?

Part A: The owner of the calves or the person responsible for the husbandry of the calves.

Part B: To be completed by the livestock carrier and/or the owner or person responsible for the husbandry of the calves

Who keeps the copies?

Top sheet: (White) goes with the calves to the purchaser.

Middle sheet: (Green) goes to the carrier.

Bottom sheet: (Pink) stays in the book and should be kept for auditing purposes.

How do I order copies of the LPA NVD?

- 1 Go to www.mla.com.au/nvd or
- 2 Phone 1800 683 111

Where do I go for more information?

Go to www.mla.com.au/nvd

DO NOT CROSS OUT PRE-PRINTED PIC

Write the name of the person or business (and their address) that the calves have been transferred to.

Write the address of where the calves will be delivered (if different).

Use the tools provided in the LPA program to help you answer Part A with confidence.

NATIONAL VENDOR DECLARATION (BOBBY CALVES) AND WAYBILL

BC0412

For calves between 5 and 30 days of age not accompanied by their dam

Part A To be completed by the owner or person who is responsible for the husbandry of the calves.

Owner of the calves **David Grazier Wintergreen Pastoral Co.** (FULL TRADING NAME)

Property/place where the journey commenced **'Wintergreen' RMB 123** (ADDRESS)

Warren NSW (TOWN/SUBURB) (STATE)

Property Identification Code (PIC) of this property **N A 1 2 3 4 5 6**

This MUST be the PIC of the property that the stock is being moved from

Description of calves

| Number | Description BREED, SEX, E.G. (FRIESIAN MIXED SEX) |
|--------|--|
| 12 | Friesian Bull Calves |
| 1 2 | Total Use the Attachment Forms for consignments that require more lines to describe the stock. (See Explanatory Notes) |

Completed by **John Burrows, Burrows Livestock Agency** (NAME OF PERSON OR BUSINESS)

Warren NSW (ADDRESS) (TOWN/SUBURB) (STATE)

Destination (if different) of calves **Warren Saleyards** (LOCATION ADDRESS)

Details of other statutory documents relating to this movement e.g. health statement

NUMBER OFFICE OF ISSUE EXPIRY DATE

1 Have these calves been raised on a licensed dairy farm or consistent with the rules of an independently audited QA program on the property the PIC of which is shown above?

Yes No If Yes, give details: NAME OF PROGRAM ACCREDITATION OR LICENSE NO.

2 Has the owner stated above owned these calves since their birth?

Yes No If No, how long ago were the calves obtained or purchased? Less than 1 week More than 1 week

3 In the past 60 days, have any of the calves in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?

Yes No If Yes, give details:

CHEMICAL PRODUCT DATE APPLIED WHP DATE FIRST FED/GRAZED DATE FEEDING/GRAZING CEASED

4 Have any of the calves in this consignment been treated orally, externally or by injection with a veterinary drug or chemical, including medicated feeds? (See Explanatory Notes)

Yes No If Yes, list details in the following space provided

| VETERINARY DRUG/CHEMICAL | CALF TREATMENT DATE | MEAT WHP (DAYS) | ESI (IF SET) |
|--------------------------|---------------------|-----------------|--------------|
| | / / 20 | | |
| | / / 20 | | |

5 Have any of the calves in this consignment had access to milk from cows that had been treated orally, externally or by intramammary, intramuscular or subcutaneous injection with a veterinary drug or chemical, before the milk withholding period has expired? (See Explanatory Notes)

Yes No If Yes, list details in the following space provided

| VETERINARY DRUG/CHEMICAL | DATE CALF LAST HAD ACCESS TO CONTAMINATED MILK | MEAT WHP OF COW (DAYS) | ESI (IF SET) |
|--------------------------|--|------------------------|--------------|
| | / / 20 | | |
| | / / 20 | | |

6 In the past 6 months have any of these animals been on a property listed on the ERP database or placed under any restrictions because of chemical residues?

Yes No If Yes, give details

7 Additional information: (See Explanatory Notes)

S a u d i e l i g i b l e

Declaration The Declaration is only valid if signed and dated

1 **David Grazier 'Wintergreen' RMB 123 Warren NSW** FULL NAME FULL ADDRESS

ADDRESS CONT.

declare that, I am the owner or the person responsible for the husbandry of the calves and that all the information in Part A of this document is true and correct. I also declare that I have read and understood all the questions that I have answered, I have read and understood the explanatory notes that the calves in this consignment meet the animal welfare requirements being they are at least in their fifth (5) day of life, are fit and strong enough to be transported for sale or slaughter, and have been fed milk or milk replacer on the farm within 6 hours of transport, and while under my control, the calves were not fed restricted animal material (including meat and bone meal) in breach of State and Territory legislation.

Signature* *David Grazier* DATE 04/04/2012

*Only the person whose name appears above may sign this declaration, or make amendments which must be initialled.

Tel no. 02 9463 9000 Fax no. 02 9463 9111

Part B To be completed by the person in charge of the calves while they are being moved. Completion of this part is optional in VIC

Date and time movement commenced: / / 20 : (am/pm)

Vehicle registration number(s)*:

I am the person in charge of the calves during the movement and declare all the information in Part B is true and correct.

Signature Date / / 20 Tel no.

*When more than one truck is carrying the calves, other vehicle registration numbers are to be recorded.

Please Note: In the case of calves sold at auction, this declaration is to be retained (original, scanned copy or summary) by the selling agent for a minimum of two (2) years, or three (3) years in WA. A copy is to be made available to any buyer of the consignment, or part of the consignment, on request.

Do not send calves to slaughter if they are still within the withholding period or export slaughter interval.

Once you have correctly completed and signed this form you have met the requirement to have a livestock travel document* and declared that all livestock covered by the LPA NVD have met the LPA program requirements and animal material feeding restrictions.

The livestock carrier and/or the owner of the calves or the person responsible for the husbandry of the calves should fill in Part B.

The LPA NVD is your guarantee to buyers - get it right.

© Copyright Meat and Livestock Australia 2011. The Meat and Livestock Australia logo is a registered trade mark of Meat and Livestock Australia Limited. The Livestock Production Assurance logo is a registered trademark of AUS-MEAT Limited. * The LPA NVD is for cattle, sheep and lambs, EU cattle, goats, and Bobby Calves. Travel documents (such as waybills and travelling stock statements) are required by State Governments in Western Australia, New South Wales, Tasmania and Queensland. They are optional in South Australia and Victoria. The LPA/NVD is not recognised as a legal document for stock movements in the Northern Territory.

EXPLANATORY NOTES – BOBBY CALVES - FOR CALVES BETWEEN 5 AND 30 DAYS OF AGE NOT ACCOMPANIED BY THEIR DAM

Background

The LPA National Vendor Declaration (LPA NVD) is part of the cattle industry's commitment to food safety and product integrity.

Waybills are required when Bobby Calves (and other stock) are moved in the Australian Capital Territory (ACT), Northern Territory (NT), New South Wales (NSW), Queensland (QLD), Western Australia (WA), South Australia (SA) and Tasmania (TAS). Only this combined LPA NVD/waybill need be completed in these States/Territories when Bobby Calves are being moved. The completion of Part B of this combined LPA NVD/waybill is optional in those States where waybills are not required. The Northern Territory (NT) only accepts an NT waybill as its mandatory movement document; it does not accept the LPA NVD/Waybill.

Standalone waybills will continue to be available from relevant regulatory authorities.

Producers must provide a copy of this document for all Bobby Calves they move to another property or offer for sale or slaughter, and to request a correctly completed copy or post sale summary when buying Bobby Calves

General

Answer all items accurately. Any false, misleading or unverified statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The cost of any residue testing required or undertaken in response to information given on the document is a commercial matter between the vendor and buyer (except where industry funds such testing).

The document is in triplicate.

- **Top sheet:** (White) goes with the calves to the purchaser.
- **Middle sheet:** (Green) goes to the carrier.
- **Bottom sheet:** (Pink) stays in the book and should be kept for auditing purposes.

PART A

Part A is only to be completed by the owner of the Bobby Calves or person responsible for the husbandry of the Bobby Calves

Address and PIC (Property Identification Code) of property/ place where the journey commenced

This LPA NVD can only be used when the bobby calves are being moved from the property to which the pre-printed PIC is assigned. If the stock are being moved from a different property (e.g. agistment), you should obtain an LPA NVD from the owner of the property or an emergency LPA NVD if available from your stock agent.

If the Bobby Calves were walked to yards on another property exclusively for the purpose of loading at the commencement of this journey, do not record the

PIC of the property on which the Bobby Calves were loaded.

A new LPA NVD/waybill must be completed if the Bobby Calves have been purchased and/or moved to a new property, and then despatched to a saleyard, abattoir or other destination.

Description of Bobby Calves

For consignments that require more lines to describe the stock, go to the website www.mla.com.au/lpa and select Vendor declarations and select the link: Attachment to the NVD/Waybill

Ensure that the total number of Bobby calves being sold is put in the "Total" box.

Consigned to / Destination (If different)

Include in "Consigned to" the name of the person and/or company the Bobby Calves are being consigned to including full location address of person and/or company e.g. Mr Smith ABC Stock Agents, Town, and State.

Include in "Destination (if different)" the full location address of the destination of the Bobby Calves if they are not being sent to the location address of who the Bobby Calves are being consigned to e.g. ABC Saleyards, Town, State.

Details of other statutory documents

Other documents relating to this movement e.g. permit, cattle health statement, including additional sheets of descriptions of Bobby Calves. The words "Attachment to LPA NVD/ Waybill serial number..." must be on every additional document with the serial number recorded.

Additional document (s) must be attached to the original and both copies.

Ownership (Question 2) (If you DON'T KNOW, you must tick NO) When sending in stock in one lot that are both vendor bred and non vendor bred, you must either tick "No" and answer the subsequent question on how long they have been owned for or use a separate document for the vendor bred stock and the non vendor bred stock

Stockfeed (Question 3) (If you DON'T KNOW, you must tick YES)

This question is important to ensure that calves do not have unacceptable residues after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals. If the answer is "Yes" record all requested details in the space provided.

Veterinary drugs and chemicals (Question 4) as set by APVMA or SAFEMEAT (If you DON'T KNOW, you must tick YES)

The APVMA website should be checked for the current requirements for Export Slaughter Intervals (ESIs) and Withholding Periods (WHPs). www.apvma.gov.au/ESI

Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments.

ESIs are the period following treatment when Bobby Calves are unsuitable for export processing. ESIs are industry standards to ensure export requirements are met. For example SAFEMEAT has implemented a 90 day Provisional Russian ESI for prescribed veterinary medicines and feed additives containing oxytetracycline or chlortetracycline to meet country specific export requirements.

WHPs are the period following treatment when Bobby Calves are unsuitable for processing for consumption in Australia.

Milk Consumption (Questions 5) (If you DON'T KNOW, you must tick YES)

Include exposure through access to milk from cows treated or exposed to drugs or chemicals that may be excreted in the milk. Always read the label and observe the withholding period.

Extended Residue Program (ERP) status (Question 6) (If you DON'T KNOW, you must tick YES)

Answer "Yes" if, in the past 6 months:

- The property/farm PIC has been placed under a status (such as an antibiotic KV Status) as notified by the National Residue Survey due to residues that exceeded the maximum residue limit (MRL) for agvet chemicals.

Additional information (Question 7)

Use this section to provide other information on chemical use, animal health status, or commercial matters that are not covered specifically on the form including specific market eligibility. To declare "Saudi eligible" Bobby Calves must have never in their lives been fed animal protein, or animal fats/tallow, or animal remains, other than those naturally present in milk.

Only declare bobby calves Saudi Eligible if: (a) they were bred on your property and you know they have only been fed grass or supplementary fed with hay, silage, straw or grain, or; if a commercial or home mixed feed has been used and the label advises no animal fats (such as tallow, and used cooking oils) have been used in the feed mix. (b) you have evidence showing that these particular bobby calves have never in their lives been fed feed containing animal fats. Acceptable evidence includes an agent's post-sale summary identifying the seller and endorsed with the words "Saudi Eligible" or a signed statement or LPA NVD endorsed with the words "Saudi Eligible" from the previous owner or the relevant question on the LPA NVD is answered in a way, that declares Saudi Eligible. Otherwise, you must declare the cattle as being fed feed containing animal fats.

Declaration

Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages if any information in part A is incorrect. Before signing you must be absolutely satisfied you understand all elements of the document, and these explanatory notes.

Animal Welfare

By signing the declaration you are declaring that the calves in a consignment meet animal welfare requirements. People in possession of, and handling, bobby calves have a responsibility to care for the welfare of bobby calves under their control, and must only consign calves on this NVD that are between 5 and 30 days old travelling without mothers and must:

- i) be protected from cold and heat
 - ii) be in good health, alert and able to rise from a lying position
 - iii) have been adequately fed milk or milk replacer on the farm within 6 hours of transport
 - iv) be prepared and transported to ensure delivery in less than 18 hours from last feed with no more than 12 hours spent on transports
 - v) have an auditable and accessible record system that identifies the calves were last fed within 6 hours of transport unless the journey is between rearing properties and is less than 6 hours' duration.
- Calves which do not meet these criteria must not be consigned to saleyards or to slaughter.

Restricted Animal Material includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal etc. It does not include tallow, gelatine or milk products. Contact your State Agriculture or Primary Industries Department for more details on these feeding restrictions.

PART B

PRODUCERS SHOULD ENSURE THAT THE SECTION "DATE AND TIME MOVEMENT COMMENCED" IS COMPLETED

The carrier (or drover where applicable) must complete this part and sign it. When more than one truck is carrying the Bobby Calves all vehicle registration numbers are to be recorded. If there is insufficient space to record all the vehicle registration numbers an additional document must be attached to the original and all copies. Some state regulatory authorities will require a copy of the LPA NVD/waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action. This NVD/Waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property.

Export Slaughter Interval (ESI) and Withholding Periods (WHP) for Bobby Calves – currency as at February 2013

The Australian Pesticides and Veterinary Medicines Authority (APVMA) and SAFEMEAT have compiled a list of ESIs and WHPs for products used in cattle. Many of these ESIs were established previously by a third party and the accuracy and validity of the values are under review. ESIs are subject to change due to alterations in overseas requirements, and ongoing review and consultation with industry. **If you are uncertain of a ESI or WHP for a product that you have used**, the information is maintained and available via the APVMA website. **To review the latest ESI and WHP information go to www.apvma.gov.au/ESI or contact APVMA: Ph: 02 6210 4837 or Email: residues@apvma.gov.au**

The **Export Slaughter Interval** (ESI) is the minimum time interval that should elapse between the last treatment of an animal and slaughter for export. ESIs are an industry standard to ensure export requirements are met. The **Withholding Period** (WHP) for meat is the minimum period that must elapse between the last treatment of an animal and slaughter for human consumption in Australia. The WHP is a statutory requirement. WHPs listed in this table are for meat.

| Chemical Product | WHP (days) | ESI (days) | Chemical Product | WHP (days) | ESI (days) | Chemical Product | WHP (days) | ESI (days) | Chemical Product | WHP (days) | ESI (days) |

Notes:
T: ESI is under review and final ESI may be longer.
§: Calves which have suckled on treated cows must not be slaughtered less than 4 months after the last treatment of these cows.
* Removal of the ear tag prior to slaughter is recommended to prevent possible contamination.
(-): Producers may notice many of the antibiotics have been removed from the ESI list. Industry stakeholders decided to remove products without ESIs from the list, this included many antibiotics. Producers using antibiotics, or other products listed without ESIs, are advised to consult the chemical company or their veterinarian concerning trade advice.

IMPORTANT INFORMATION

- The label WHP is the minimum legal requirement at all times.
- Label directions for use must be strictly adhered to for the ESI to apply.

DISCLAIMER: MLA does not accept responsibility for the accuracy or completeness of the ESIs and the WHPs. The ESIs are advisory only and are subject to change. The ESIs and WHPs have been provided to MLA by third parties and have not been verified by MLA.
