

NATIONAL VENDOR DECLARATION (GOATS) AND WAYBILL

G0413

Part A To be completed by the owner or person who is responsible for the husbandry of the goats.

Owner of goats (FULL TRADING NAME)

Property/place where the journey commenced (ADDRESS)

(ADDRESS CONTINUED) (TOWN/SUBURB) (STATE)

Property Identification Code (PIC) of this property

This MUST be the PIC of the property that the stock is being moved from

Description of goats

Number	Year born (DROP)	Description (BREED, SEX & TYPE E.G. CROSS-BRED)	Month of shearing	All Brands/PICs on Ear Tags (IF DIFFERENT FROM THAT SHOWN ABOVE)	Earmarks (IF PRESENT OR REQUIRED)
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					
					

Total Use the Attachment Forms for consignments that require more lines to describe the stock. (See Explanatory Notes)

Have PICs on all NLIS tags in this consignment been listed in the Description table above (other than the PIC printed on this NVD)? Yes No

OR
Have all goats in this consignment been tagged with an additional pink post breeder tag with the PIC printed on this NVD? (or WA brand as listed in the Description table above)? Yes No

Consigned to (NAME OF PERSON OR BUSINESS)

(ADDRESS) (TOWN/SUBURB) (STATE)

Destination (if different) of goats (LOCATION ADDRESS)

Details of other statutory documents relating to this movement e.g. permit, health statement

DOCUMENT TYPE NUMBER OFFICE OF ISSUE EXPIRY DATE / /20

1 Were all of these goats bred by the owner or vendor?

Yes No If No, how long ago were the goats obtained or purchased?
A. Less than 2 months B. 2-6 months C. 6-12 months D. more than 12 months

2 Have all the goats in this consignment been grown under rangeland conditions? (See Explanatory Notes)

Yes No

3 Are any of the goats in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) as set by APVMA or SAFEMEAT, following treatment with any registered veterinary drug or chemical? (See Explanatory Notes)

Yes No If Yes, give details: (Record additional details in question 6)

CHEMICAL PRODUCT / /20 TREATMENT DATE WHP ESI (IF SET)

4 In the past 60 days, have any of these goats consumed any material that was still within a withholding period when harvested, collected or first grazed?

Yes No If Yes, give details:

CHEMICAL PRODUCT / /20 DATE APPLIED / /20 GRAZING WHP / /20 DATE FIRST FED/GRAZED / /20 DATE FEEDING/GRAZING CEASED

5 Have the goats in this consignment ever in their lives been fed feed containing animal fats? (See Explanatory Notes)

Yes No

6 Please include any additional information below

eg: vaccination programs, animal health certification, additional declarations, etc.

Declaration

I FULL NAME FULL ADDRESS

ADDRESS CONT.

declare that, I am the owner or the person responsible for the husbandry of the goats and that all the information in part A of this document is true and correct. I also declare that I have read and understood all the questions that I have answered, that I have read and understood the explanatory notes, and that, while under my control, the goats were not fed restricted animal material (including meat and bone meal) in breach of State or Territory legislation.

Signature* Date* / /20

*Only the person whose name appears above may sign this declaration, or make amendments which must be initialled.

Tel no. Fax no.

Part B To be completed by the person in charge of the goats while they are being moved. Completion of this part is optional in SA and VIC.

Movement commenced: / /20 (am/pm)

Vehicle registration number(s)*:

I am the person in charge of the goats during the movement and declare all the information in Part B is true and correct.

Signature Date / /20 Tel no.

*When more than one truck is carrying the goats, other vehicle registration numbers are to be recorded.

Part C Agents declaration for goats sold at auction. (Completion of Part C is optional.)

Agents completing Part C should retain the original or a scanned copy of the original declaration or a summary for a minimum of two (2) years, or three (3) years in WA and supply a copy or summary to any buyer on request.

Vendor code Agent's code

Stock agent company

Buyer's name Destination PIC

No. of goats purchased Saleyard arrival time (am/pm) :

Agent's signature Date / /20 DAY MONTH YEAR

An LPA NVD is a vital part of your business - make sure it is complete and correct

Who is responsible for completing the LPA NVD?

- Part A:** The goat owner or the person responsible for the husbandry of the goats.
Part B: The livestock carrier.
Part C: The livestock agent (optional).

Who keeps the copies?

- Top sheet:** (White) goes with the goats to the purchaser.
Middle sheet: (Green) goes to the carrier.
Bottom sheet: (Pink) stays in the book and should be kept for auditing purposes.

How do I order copies of the LPA NVD?

- Go to www.mla.com.au/nvd or
- Phone 1800 683 111

Where do I go for more information?

Go to www.mla.com.au/nvd

IF PIC IS PRE-PRINTED DO NOT CROSS OUT.

List in the Description Table in Part A all PIC numbers (other than the PIC printed) on tags of goats in this consignment

Write the name of the person or business (and their address) that the goats have been transferred to.

Write the address of where the goats will be delivered (if different).

Do not send goats to slaughter if they are still within the withholding period or export slaughter interval.

Use the tools provided in the LPA program to help you answer Part A with confidence.

Once you have correctly completed and signed this form you have met the requirement to have a livestock travel document* and declared that all livestock covered by the LPA NVD have met the LPA program requirements and animal material feeding restrictions.

The carrier should fill in Part B.

The agent may fill in Part C.

The LPA NVD is your guarantee to buyers - get it right.

© Copyright Meat and Livestock Australia 2011. The Meat and Livestock Australia logo is a registered trade mark of Meat and Livestock Australia Limited. The Livestock Production Assurance logo is a registered trademark of AUS-MEAT Limited. * The LPA NVD is for cattle, sheep and lambs, EU cattle, goats, and Bobby Calves. Travel documents (such as waybills and travelling stock statements) are required by State Governments in Western Australia, New South Wales, Tasmania and Queensland. They are optional in South Australia and Victoria. The LPA/NVD is not recognised as a legal document for stock movements in the Northern Territory.

EXPLANATORY NOTES – NATIONAL VENDOR DECLARATION (GOATS) AND WAYBILL

Background

The LPA National Vendor Declaration (LPA NVD) is part of the Goat industry's commitment to food safety and product integrity.

Waybills are required when Goats (and other stock) are moved in the Australian Capital Territory (ACT), Northern Territory (NT), New South Wales (NSW), Queensland (QLD), Western Australia (WA), South Australia (SA) and Tasmania (TAS). Only this combined LPA NVD/waybill need be completed in these States/Territories when Goats are being moved. The completion of Part B of this combined LPA NVD/waybill is optional in South Australia (SA) and those States where waybills are not required. The Northern Territory (NT) only accepts an NT waybill as its mandatory movement document; it does not accept the LPA NVD/Waybill.

Standalone waybills will continue to be available from relevant regulatory authorities, and their use is preferable if only a waybill is required.

Producers must provide a copy of this document for all Goats they move to another property or offer for sale or slaughter, and to request a correctly completed copy or post sale summary when buying Goats

General

Answer all items accurately. Any false, misleading or unverified statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The cost of any residue testing required or undertaken in response to information given on the document is a commercial matter between the vendor and buyer (except where industry funds such testing).

The document is in triplicate.

- **Top sheet:** (White) goes with the Goats to the purchaser.
- **Middle sheet:** (Green) goes to the carrier.
- **Bottom sheet:** (Pink) stays in the book and should be kept for auditing purposes.

PART A

Part A is only to be completed by the owner of the goats or person responsible for the husbandry of the goats
Address and PIC (Property Identification Code) of property/place where the journey commenced

This LPA NVD can only be used when the stock are being moved from the property to which the pre-printed PIC is assigned. If the stock are being moved from a different property (e.g. agistment), you should obtain an NVD from the owner of the property or an emergency NVD from a stock agent (if available)

A new LPA NVD/waybill must be completed if the Goats have been purchased and/or moved to a new property, and then despatched to a saleyard, abattoir or other destination.

Description of Goats

The identification of goats creates a clear linkage between the livestock and the information provided on this form. All PICs on tags attached to the goats must be listed, especially if the goats are not vendor bred, are a mixed mob, or are being moved from a property other than their property of birth. Alternatively, a pink post-breeder tag may be attached to every animal. The questions below the description box require you to state which option you have chosen to identify PICs within the consignment. Ear notching, tattooing or distinctive nose or head raddles may be used for other identification purposes. The application of brands to the body of Goats immediately prior to dispatch is not recommended as such brands may not be completely scorable. **For consignments that require more lines to describe the stock, go to the website www.mla.com.au/lpa and select Vendor declarations and select the link: Attachment to the NVD/Waybill**

Consigned to / Destination (If different)

Include in "Consigned to" the name of the person and/or company the Goats are being consigned to including full location address of person and/or company e.g. Mr Smith ABC Stock Agents, Town, and State.

Include in "Destination (if different)" the full location address of the destination of the Goats if they are not being sent to the location address of who the Goats are being consigned to e.g. ABC Saleyards, Town, State.

Details of other statutory documents

Other documents relating to this movement e.g. permit, goat health statement, including additional sheets of descriptions of Goats. The words "Attachment to LPA NVD/Waybill serial number.." must be on every additional document with the serial number recorded. Additional document (s) must be attached to the original and both copies.

Ownership (Question 1) (If you DON'T KNOW, you must tick NO) When sending in stock in one lot that are both vendor bred and non vendor bred, you must either tick "No"

and answer the subsequent question on how long they have been owned for or use a separate document for the vendor bred stock and the non vendor bred stock.

Rangeland conditions (Question 2) (If you DON'T KNOW, you must tick NO)

Rangeland refers to goats which are harvested and have never been confined to a feedlot or subjected to any chemical treatment

Veterinary drugs and chemicals (Question 3) as set by APVMA or SAFEMEAT (If you DON'T KNOW, you must tick YES)

Veterinary drugs include chemicals administered orally, by injection or to the skin such as antibiotics, vaccines, worm and externally applied insecticides but exclude vitamin and mineral treatments.

Do not use products that are not specifically registered for use in goats except in accordance with an APVMA permit or written veterinary directions that include withholding requirements for domestic and export slaughter.

Export Slaughter Intervals (ESIs) and Withholding Periods (WHPs) for commonly used vet chemicals that are registered for use in Goats are listed in the table in this booklet. ESIs are the period following treatment when Goats are unsuitable for export processing. ESIs are industry standards to ensure export requirements are met. WHPs are the period following treatment when Goats are unsuitable for processing for consumption in Australia.

Updated ESI information is available at www.apvma.gov.au/ESI

Agricultural chemicals (Question 4) (If you DON'T KNOW, you must tick YES)

This question is important to ensure that Goats do not have unacceptable residues after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals. If the answer is "Yes" record all requested details in the space provided. If the Goats have consumed purchased feeds within 60 days prior to sale the vendor should answer "Yes" to this question unless they hold SAFEMEAT endorsed vendor declarations for that feed and those declarations confirm that all required WHPs have been met and/or that the feed complies with all requirements relating to chemical residues through a QA testing program. If any of the Goats consumed pasture, stubbles or failed crops previously treated with a chemical that had no grazing/ fodder WHP on the label the question should be answered "Yes" and details provided.

Animal Fats (Question 5) (If you DON'T KNOW, you must tick YES)

Only declare Goats **No** if: (a) they were bred on your property and you know they have only been fed grass or supplementary fed with hay, silage, straw or grain, or; if a commercial or home mixed feed has been used and the label advises no animal fats (such as tallow, and used cooking oils) have been used in the feed mix. (b) you have evidence showing that these particular goats have never in their lives been fed feed containing animal fats. Acceptable evidence includes an agent's post-sale summary identifying the seller and endorsed with the words "Saudi Eligible" or a signed statement or LPA NVD endorsed with the words "Saudi Eligible" from the previous owner or the relevant question on the LPA NVD is answered in a way, that declares Saudi Eligible. Otherwise, you must declare the goats as being fed feed containing animal fats.

Additional information (Question 6)

List any required attached documents, and attach copies of the documents to the original and all copies of the declaration. Use this section to provide other information on chemical use, animal health status, or commercial matters that are not covered specifically on the form including specific market eligibility.

Declaration

Signing this declaration has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages if any information in part A is incorrect. Before signing you must be absolutely satisfied you understand all elements of the document, and these explanatory notes.

Restricted Animal Material includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal etc. It does not include tallow, gelatine or milk products. Contact your State Agriculture or Primary Industries Department for more details on these feeding restrictions.

PART B

The carrier (or drover where applicable) must complete this part and sign it. When more than one truck is carrying the Goats all vehicle registration numbers are to be recorded. If there is insufficient space to record all the vehicle registration numbers an additional document must be attached to the original and all copies. Some state regulatory authorities will require a copy of the LPA NVD/waybill to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action. Completion of this part is optional within South Australia and Victoria. This LPA NVD/Waybill is valid for one journey only, e.g. from vendor's property to saleyard. A separate waybill must be completed for any subsequent journey, e.g. from saleyard to buyer's property

Export Slaughter Intervals (ESI) and Withholding Periods (WHP) for Goats - as at May 2013

The **export slaughter interval** (ESI) is the minimum suggested time interval that should elapse between the last treatment of an animal and slaughter for export. ESIs are an industry standard to ensure export requirements are met and are set by APVMA and or SAFEMEAT.

The **withholding period** (WHP) for meat is the minimum period that must elapse between the last treatment of an animal and slaughter for human consumption in Australia. The WHP is a statutory requirement. WHPs listed in this table are for meat.

CHEMICAL PRODUCT	WHP (days)	ESI (days)
Alben	10	na
Capripec Broad Spectrum Oral		
Anti-parasitic Solution for Goats	14	28
Combat	10	na

Valbazen S/L/G Drench	10	na
WSD Albendazole	10	na

NOTES

This list includes those products where goats appear on the label and dose/application rates are provided. Data for the establishment of additional export slaughter intervals will be progressively sought and may be available.

It is recognised that many products available for sheep and cattle are used off label for goats. Products without goats on the label should not be used on goats for export meat production unless there is a permit for the use issued by the APVMA.

IMPORTANT INFORMATION

- The label WHP is the minimum legal requirement at all times.
- Label directions for use must be strictly adhered to for the ESI to apply.
- 'na' (not available) indicates that an ESI is yet to be determined.

To review the latest ESI and WHP information go to Australian Pesticides and Veterinary Medicines Authority (APVMA) website:

www.apvma.gov.au/ESI (select the cattle and or sheep links and scroll through the products with goat listed in them.)

www.apvma.gov.au/pubcris (write goat in the section Host Animal/Crop)

Phone: +61 2 6210 4837
Email: residues@apvma.gov.au
