BusinessEDGE workshops have been run across northern Australia since 2010 with almost 500 participants completing the course. This course has specific relevance to southern Australia, while still retaining all the key financial and business principles.

Each participant will receive a full set of background and course notes, a hardcopy of the PowerPoint presentation used for teaching, and a USB drive with a suite of spreadsheet based decision support tools used in the course.

The course is taught on a case study basis to bring more meaning to the underlying principles. All the concepts are taught and discussed in a well-grounded practical example from the case study.
