

Pilot carbon accounting workshop

Toowoomba, Friday 27 March 2020

VENUE TAFE Queensland Rural Centre of Excellence
100 Bridge Street Toowoomba City

TIME 9:00am to 3:00pm

MLA, TSBE FLA and Integrity Ag and Environment Pty Ltd are holding a pilot carbon accounting workshop for Queensland extensive cattle producers on 27 March 2020.

Producers who attend this group will be assisted in generating a carbon account for their beef cattle operation. Calculating baseline carbon emissions and stored carbon is an essential first step for producers wanting to consider low or zero carbon branding and sustainable productivity improvements.

The pilot workshop is being used to inform design of a carbon accounting training manual for the industry to be released later in the year.

Participation in the workshop is by invitation and spaces are limited. Participants are required to meet certain criteria as part of the selection process.

If you would like to express an interest in attending, please contact Margaret Jewell no later than 5pm, Wednesday 18 March 2020:

Margaret Jewell
MLA's CN30 Manager
mjewell@mla.com.au
0436 476 312.

Lunch and refreshments will be provided.
