## Strategies to increase profit and sustainability

**Emerald, 21–23 March 2017**

**Presented by Bob Shepherd**

The Grazing Land Management (GLM) package is customised for northern Australian producers. It is designed to give you a practical and planned approach to improve the productivity and sustainability of your country.

### During the workshop you will:

- Learn how to assess the condition of your paddocks and calculate their long term carrying capacity
- Better understand the relationships between pasture, water, soils, woodlands, biodiversity, fire and weeds
- Consider the financial impact of a range of grazing management options
- Use a locally relevant case study to explore different management options
- Develop a grazing management plan for your property

### The workshop package includes:

- Three-day workshop (with a paddock session)
- Follow-up day (approximately 4–8 months later)
- Workshop notes and reference material
- Morning teas, afternoon teas and lunches

The workshop uses an interactive style and builds on participants' knowledge.
