Grazing fundamentals EDGE

Roma, Qld: 30th May 2018

VENUE The Shed, 50 Bungil St, Roma
TIME 8:30am to 4.30pm

GRAZING FUNDAMENTALS EDGE IS A ONE-DAY WORKSHOP DESIGNED TO GIVE YOU A BROAD UNDERSTANDING OF THE COMPONENTS OF THE GRAZING PRODUCTION SYSTEM AND THE CORE, SCIENTIFICALLY-BACKED PRINCIPLES BEHIND OPTIMISING GRAZING LAND PRODUCTIVITY.

What you will learn:

- environmental regulators of pasture growth and quality
- local seasonal pasture growth patterns and key decision dates
- how soil properties influence pasture growth
- how grazing affects pasture plants, their productivity and growth
- how to assess land condition and how this impacts on carrying capacity
- know when and how to use pasture spelling
- principles behind successful grazing systems
- how to account for different classes of animals when assessing grazing pressure
- what's involved with forage budgeting

Attending this workshop will help you to:

- understand what conditions drive pasture growth and how you can use strategic grazing management to improve pasture productivity
- evaluate the productive potential of your property and identify opportunities for improvement
- better align herd management with seasonal changes in pasture condition

Deliverers:

- Col Paton – EcoRich Grazing
- Jill Alexander – Applied Ag
- Rhonda Toms-Morgan, ConnectAg

Places are limited.

Cost includes comprehensive set of workshop notes, workbook and lunch, morning/afternoon tea

Price: \$450pp + GST for 1 person from a business
\$500pp + GST for 2 people from same business

* Price discounted by \$300 thanks to the generous support of \$200 from GrazingFutures BMP project, an initiative of the Queensland Government and \$100 from Queensland Murray-Darling Committee through funding from the Australian Government's National Landcare Program.

Grazing land management EDGE

Roma, Qld: 30th – 31st May 2018

VENUE The Shed, 50 Bungil St, Roma

TIME 8:30am to 4:30pm both days

GRAZING LAND MANAGEMENT (GLM) EDGE BUILDS ON GRAZING FUNDAMENTALS ON DAY 1. IN ADDITION, IT REVIEWS THE SCIENCE AND PRINCIPLES BEHIND DIFFERENT LAND MANAGEMENT STRATEGIES YOU CAN USE TO OPTIMISE YOUR LAND CONDITION AND PRODUCTIVITY.

Attending this workshop will help you to:

- better understand the connection between land condition, pasture growth and animal production
- allow for climate variability when planning livestock management
- recognise and account for the dominant land types in on your property
- make realistic carrying capacity estimates based on the mix of land types, condition of these land types and timber competition
- choose appropriate tools and strategies to improve land condition and carrying capacity

Price: \$1,200pp* + GST for 1 person from a business
\$950pp* + GST for 2 people from same business

* Price discounted by \$300 thanks to the generous support of \$200 from GrazingFutures BMP project, an initiative of the Queensland Government and \$100 from Queensland Murray-Darling Committee through funding from the Australian Government's National Landcare Program.

Cost includes 2-day workshop, workshop notes, workbook and lunch, morning/afternoon tea each day

In addition to what you have already learnt in Grazing fundamentals, you will learn:

- how to assess long-term carrying capacity of paddocks and properties
- what influences the tree/grass balance and how to manage for these influences
- the role of fire, sown pastures and weed management in healthy, productive grazing systems

Deliverers:

- Col Paton – EcoRich Grazing
- Jill Alexander – Applied Ag
- Rhonda Toms-Morgan – ConnectAg
