Making More From Sheep

It's ewe time! Tasmania

TIME	TOPIC	SPEAKER
8:30	Registration	
9:00	Introduction and Sheepmeat & Wool Outlook Emily will chair the forum and provide a brief insight into the market outlook for both the sheepmeat and wool sectors.	Emily King Australian Wool Innovation
9:20	Maximising Ewe Performance Nutrition and management of pregnant and lactating ewes are both crucial factors in maximising ewe and lamb survival, as well as the lifetime productivity of the ewe and her progeny. Nathan will discuss nutrition requirements and on-farm management strategies that can be put in place to ensure a successful outcome and look at strategies for identifying the most productive ewes.	Nathan Scott Achieve AG Solutions Inverleigh Vic
9:55	Mob Size and Marking Rates Maximising the number of lambs marked to ewes joined continues to be a real opportunity for the Australian sheep industry. Jason will discuss recent research that has established how ewe mob size at lambing can impact survival rates and will show how mob and paddock size can be optimised for different enterprises.	Jason Trompf JT Agri-Solutions Wangaratta Vic
10:30	Achieving Your Carrying Capacity Jason will outline the two options for feed budgeting - tactical and strategic. This presentation will discuss how feed budgeting can be used in your farm system to help inform stocking rates and carrying capacity, develop supplementary feeding programs and meet animal production targets.	Jason Lynch Macquarie Franklin Devonport Tas
11:05	MORNING TEA	
11:30	Sheep Health is Your Wealth There have been new developments in sheep health in Tasmania – in terms of both products and challenges. Paul will discuss how to go about deciding whether you should vaccinate for campylobacter and use 8 in 1, 6 in 1 or 5 in 1 based on disease, risk and cost-benefit. Paul will also cover another key animal health issue associated with increasing irrigation - Barber's pole worm.	Paul Nilon Nilon Farm Health Perth Tas
12:05	Making Money From Breeding & Selection How do you know what to include in a breeding objective, and what information to use to make selection decisions to achieve your objective? Jason will outline the range of options and information available to you, from both external sources and on-farm measurement, to optimise your flock's progress toward your ideal.	Jason Trompf JT Agri-Solutions Wangaratta Vic
12:40	Decision Making for the Autumn Break Hilary will step through the planning that is required to manage the autumn break. This presentation will cover whether you should be supplementary feeding if pasture is limiting, whether you should be creating a feed deficit by increasing stocking rates and if pasture is not limiting, should you be buying stock?	Hilary Beech Holmes Sackett Wagga Wagga NSW
1:15	Closing Comments	Emily King Australian Wool Innovation
1:25	LUNCH
