## Precision to Decision Project

Accelerating precision agriculture to decision agriculture

P2D

+ Precision to Decision National Workshops

5 December 2016 - Gatton QLD: Horticulture industries – WS already held in 2016

1 March 2017 - Townsville QLD: Sugar and Horticulture industry focus + other industries*

2 March 2017 - Tamworth NSW: Meat, Wool, Grains and Cotton Industries

16 March 2017 - Northam WA: Grains, Wool and Meat industries

28 March 2017 - Wagga Wagga NSW: Grains, Rice and Pork industries

29 March 2017 – Tatura VIC: Dairy industry focus + other industries*

30 March 2017 - Launceston TAS: Forestry industry focus + other industries*

27 April 2017 – Barossa Valley SA: Grape and Wine industry focus + other industries*

* Plus any other regional Ag industries interested in use of precision Ag and big data analytics

These eight workshops will be held with a diverse range of agricultural industries over the next six months. These workshops aim to:

* identify your current and future information needs, and uncover any emerging issues in relation to data usage and access in your industry. This information will be used to identify opportunities for cross industry collaboration in supporting big data systems for Australian agriculture
* provide strategic direction for your industry Research & Development Corporation – for investment in big data systems and analytics
