

ReproActive Dunkeld

Weaner Management - Planning for Performance

Weaning is one of the most crucial management interventions in a beef operation, regardless of season.

RIFA Salutory, Warrnambool Veterinary Clinic & Zoetis invite you to this informative workshop. Developed by Australia's leading vets, cattle specialists & rural business experts, ReproActive is an outstanding specialised series designed to maximise the reproductive & productive potential of beef herds.

What's in Store?

- Dr Stephen Jagoe, Warrnambool Veterinary Clinic: Implementing & managing early weaning to drive efficiency & production
- Dr Craig Wood, Terang & Mortlake Veterinary Clinic: Laying the foundations for lifelong heifer productivity + Condition Scoring as a management tool
- Dr Andy Hancock, Zoetis: BRD in weaners – Why it's important & how it can be managed
- Brendan Wade, Meat & Livestock Australia : Cattle Market Update - What's driving prices & where are we heading?

When - 9:00am - 2:30pm, Friday 14th December 2018
