The focus is on pathways and preparation rather than financials, legals and communication.

We will adopt the investment mindset and ask:

- Would you advise your children to invest in this particular business?
- Is your business "investor ready"? (be they family, financiers or third parties)
- What management changes would you need?
- What operating changes would be required?
- What strategies could you consider?
- What are you trying to achieve?...and why?
- What is your "Unique Selling Proposition"?
