

Ewe Nutrition: Summer Feeding and Pre-Joining

Planning your pre-joining ewe nutrition is crucial to achieve a satisfactory joining result. This webinar will broaden your understanding of nutritional requirements pre-joining and how to maximise results over summer when grazing dry pastures and stubbles.

WEBINAR: Wednesday 27 November 8.00-8.45 pm (SA time)

(if you are unavailable you can still register to receive a recording of the webinar the following day)

Presented by Deb Scammell, Consultant, Talking Livestock, the webinar will cover:

- Target condition score pre-joining and increasing lambs conceived
- Planning pre-joining nutrition to increase % multiples
- What to consider when grazing dry pastures and stubbles
- Effective supplementation on dry feed
- Alternative feed sources such as spuds and grape marc
