

Tropical grasses, serradella and soil acidity demonstration site walk

Producer Demonstration Site update

 **Tuesday 10 November 2026 | 9am**

 **Henty, NSW** Address details provided after registration for event

Free event, all ages welcome, morning tea provided, toilet available, BYO chair

Join Holbrook Landcare Network, Bob Freebairn and NSW DPIRD for a paddock walk and talk in a Digit grass and Serradella demonstration site paddock near Henty.

Topics for discussion

- **Tropical grasses** – Role and suitability of tropical pastures in our area.
- **Serradella for permanent pasture** – Role of serradella, cultivar options, establishment and persistence.
- **Liming effect on pastures** – What lime response can we expect in pastures? Molybdenum toxicity related to high lime rate applications.
- **Local Producer Demonstration Site updates** – tropical grasses, serradella and soil acidity

Guest speakers

- Bob Freebairn – Agricultural consultant and *The Land* columnist
- Dr Richard Hayes – Senior Research Scientist, NSW DPIRD
- Steph Cowley – Project Officer, Holbrook Landcare Network
- Nick McGrath – Technical Lead (Sustainable Agriculture), Holbrook Landcare Network

This event is funded by Meat & Livestock Australia, through the Producer Demonstration Site program, with delivery by Holbrook Landcare Network.
