

Optimising ewe lamb joining outcomes

Final Project Webinar

PDS Updates webinar series

 **23 October 2026 | Time 12pm AEDT**

 **Online Via Microsoft Teams**

What does it take to successfully join ewe lambs?

1.5hr lunch-time webinar

Join MLA's PDS Updates webinar to hear firsthand experiences from the 'Optimising ewe lamb joining outcomes' Producer Demonstration Site project.

Over four years, demonstration site hosts and project facilitators have monitored ewe lamb performance, evaluated management approaches and explored the practical considerations involved in successfully joining ewe lambs under varying seasonal conditions.

This webinar will bring together key learnings from the demonstration sites, including producer reflections, management strategies and observations collected throughout the project.

Key speakers

- Sally Martin, SheepMetriX and Project Facilitator
- Gordon Refshauge, SheepMetriX
- Demonstration site host producers – Darryl Kitto, Dean Bourlet, Scott Brien and Barrick Parker,

What we'll cover

- Overview of the demonstration sites and project journey
- Seasonal influences on ewe lamb performance
- Managing liveweight and condition to support joining outcomes
- Using monitoring tools to improve management decisions
- Genetics, productivity and longer-term flock outcomes
- Producer reflections, barriers encountered and lessons learned

Ewe lamb joining in practice – What producers observed, learned and applied through four years of demonstration activities

*This webinar is delivered by Meat & Livestock Australia
in collaboration with SheepMetriX, and participating producers*
