

Lamb marking matters – Tips for lamb marking success

Webinar 2: Demonstrating the value of genetics

 **13 October 2026 | 12pm NSW time (AEDT)**

 **Online (webinar)**

Want to ensure your lambs can achieve their genetic potential?

Maximise your flock's potential and set your lambs up for long-term success by joining us for the upcoming webinar, 'Lamb marking matters'. Lamb marking is one of the most critical management events in the sheep calendar. The decisions you make during this window directly impact lamb survival, growth rates and productivity. In this session, industry experts will share practical tips, tricks and best management practices to ensure lamb marking is a success.

Presenters

Dr Tim Gole - For Flocks Sake

- Best practice pain relief options at lamb marking
- Imprint feeding
- Setting your lambs up for success

Kieran Smith - For Flocks Sake

- Conducting a wet, dry, lambled and lost assessment on ewes at lamb marking
- Collecting life data on lambs for future management decisions

This event is funded by Meat & Livestock Australia with the support of:
