

SAVE THE DATE!

CAN BETTER RAM SELECTION DELIVER BETTER FLOCK PERFORMANCE?

The Genetics Live Producer Demonstration Site project is exploring how genetic selection can influence commercial flock performance and provide producers with greater confidence when using Australian Sheep Breeding Values (ASBVs).

Come along to the project update field day to hear the latest results from the project, along with practical information and advice that will directly benefit your sheep business.

KEYNOTE SPEAKERS:

Tim Gole - For Flocks Sake

Peta Bradley - Meat & Livestock Australia

Clint Neville - Sheep Producer
