

Unlocking containment success Practical tools for higher production

PDS Updates webinar series

 **28 April, 2026 | Time 12pm AEST (QLD/NSW/VIC/TAS) / 10am WA / 11:30am SA & NT**

 **Online via Microsoft Teams**

Real-world learnings from the Barossa Improved Grazing Group (BIGG) 'Increasing production using containment areas' Producer Demonstration Site.

Meat & Livestock Australia (MLA) invites you to a free online webinar sharing practical insights from the Barossa Improved Grazing Group (BIGG) Producer Demonstration Site, Increasing production using containment areas.

The session will provide a clear summary of what the project demonstrated and introduce BIGG's new PDS focused on improving ewe health outcomes in containment systems.

Speakers

- Deb Scammell – Talking Livestock, Project Facilitator

What we'll cover

- Key results from Increasing production using containment areas
- Ration design approaches, infrastructure learnings and labour efficiencies
- On-farm impacts and adoption insights from participating producers
- Practical tools and templates developed to support containment decision-making
- Why BIGG has engaged in a new PDS Improved ewe health outcomes from containment
- What producers can expect from upcoming activities and how to get involved.

This webinar is delivered in collaboration with Deb Scammell of Talking Livestock, and the Barossa Improved Grazing Group.
