

Setting your cattle up for feedlot success

All cattle producers are invited to join North West Local Land Services for a workshop focussing on breeding and preparing feeder cattle for high performance on feed and over the hook. Being delivered in conjunction with AMG and MLA, this workshop is aimed at breeders and backgrounders of cattle destined for feeder markets to best prepare their livestock and build relationships to become suppliers of choice.

Presenters on the day include:

- Liz Pearson, Project Manager-Feedlots, Meat and Livestock Australia, Feeder Cattle Best Practice Management
- Australian Meat Group, Insights into AMG and Killara Feedlot Operations
- North West LLS Sustainable Agriculture Team, Interpreting carcass feedback, breeding objectives, EBVs and more
- Plus a small insight into day-to-day operations with tour of Killara feedlot.
