Workshop experts

Dr Tom Graham, BVSc, Coolac Veterinary Services

Tom is a large animal veterinarian specialising in cattle reproduction & has extensive knowledge of all levels of the breeding industry. Tom owns and operates Coolac Veterinary Services with his business partner Simon McPhee after buying the business from his father, Bill. Tom has also been actively involved in the stud & commercial operation of his family's farming business, Bongongo Angus.

Tom is practical in his approach to his veterinary work & cattle breeding with a large focus on commercial profit drivers for his clients herds.

Dr Matt Petersen, Veterinary Operations Manager, Zoetis Australia

Matt hales from the irrigated farmlands of the Southern Riverina. Matt has been vetting in the livestock industry for 10 years, and has a cattle trading enterprise as well. Working as a veterinarian within Zoetis, he is responsible for making sure the products that Zoetis have in the marketplace continue to function as expected under the various conditions across the cattle and sheep industries. Matt also designs and executes research trials that Zoetis continue to do as part of their R&D efforts in Australia.
