

Please join The Rangelands Living Skin Project team for a field day at Wyndham Station on the 18th March!

This field day is an opportunity to come along and see first-hand and discuss together some of the management strategies the Whyte's are using and trialling to improve cover, biodiversity and productivity across their property.

Key topics of the day will include:

- Hear from Gus & Kelly about their management & goals
- The Rangelands Living Skin project - an opportunity meet the producers and project team and discuss project findings
- Grazing management for biodiversity and carbon
- Virtual fencing - latest research and opportunities
- Pregnancy scanning in rangelands & decision making
- Soil carbon - dynamics and drivers in rangeland systems

Date: 18th March 2024 8:30am – 3:00pm

Location: Wyndham Station, 1848 Old Broken Hill Road, Anabranth South

Bring: Hat, closed shoes. Morning tea & lunch provided

RSVP by 13th March (for catering purposes) here:
