Table 1 shows the average price, reported as \$/kg FOB Australian port for offal; ex. works \$/tonne for rendered co-products and ex. works \$/each or \$/head for hides, skins and sheep runners.

The A\$ lost ground against the US\$ through April, opening at 76.02 US¢, and trading within a range of 74.75 – 76.02US¢ - averaging 75.33US¢.

Beef offal prices were again relatively stable, however with the extended holiday breaks fewer reports were received which affected this month's figures slightly, with price spreads having a larger influence on the averages.

Sheep offal prices were steady across the board except tripe which rallied. Runner prices were much

stronger but again were lightly reported.

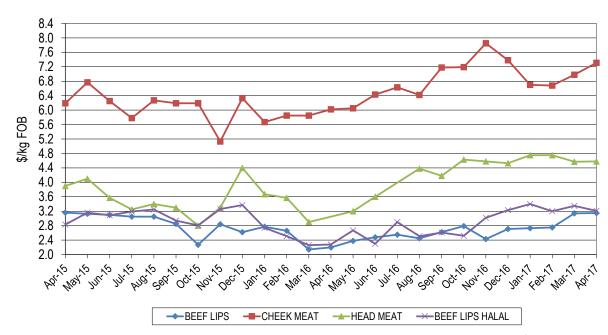

Foetal blood prices remain firm and concentrated gall prices saw a price rise.

Rendered meal prices remained firm to dearer. As a result of concern regarding the future of blender's tax credits for biodiesel in the US, tallow prices were much softer and indications are this trend is likely to continue.

Hide prices remained steady, with tight supplies and a weaker A\$ helping to maintain prices paid despite the export market being back by around 5% with exporters who attended the Hong Kong leather fair indicating a reluctance for tanners to commit to longer term purchases .

Head Offal Prices

Figure 1: Trends in beef head offal prices

Head offal products were varied in price fluctuation, month-on-month. Head meat averaged \$4.58/kg, up \$1.78/kg on year-ago levels but just 1¢/kg higher from a month ago. Cheek meat was \$1.29/kg dearer compared to the corresponding period last year, averaging \$7.31/kg and was 33¢/kg higher than last month.

Lip export prices to the US and Mexico remained stable month-on-month, averaging \$3.15/kg which was only 1¢/kg above the month prior but 95¢/kg higher year-on-year. Halal lips returned \$3.21/kg, down 14¢/kg month-on-month but still 93¢/kg above year-ago levels.

Beef Offal Trends

Figure 3b: Trends in beef offal prices

Kidneys were reported at an average of \$1.08/kg, up 9¢/kg on last month and steady year-on-year. Non-halal lungs were reported at an average of \$1.89/kg, slipping 8¢/kg on last month. Halal lungs also eased to average \$1.96/kg which was 24¢/kg above the April 2016 price but 11¢/kg cheaper month-on-month.

Figure 3c: Trends in beef offal prices

Liver prices averaged \$1.11/kg, which was up 3¢/kg month-on-month and 11¢/kg above April 2016 levels. Halal livers eased just 2¢/kg month-on-month but were 10¢/kg stronger year-on-year, with sales averaging \$1.23/kg.

Japanese and Korean Offals

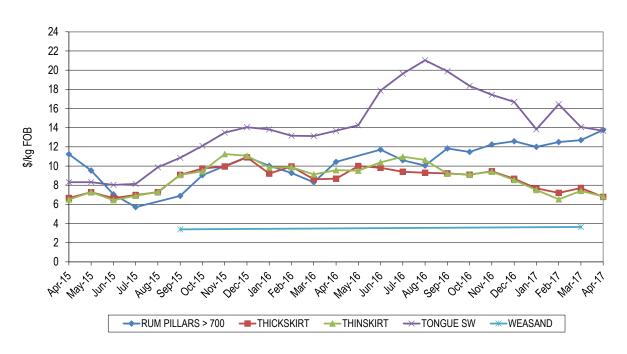

Figure 4: Trends in Japanese offal prices

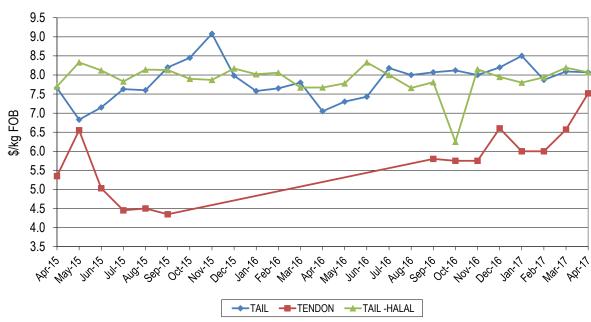

Tongue prices continued on a downward trend to average \$13.68/kg, which was 39¢/kg below prices in March but steady year-on-year.

Skirt prices also resumed the downward trend. Thick skirt was \$1.90/kg lower than last year's price and 93¢/kg weaker month-on-month, averaging \$6.78/kg, while thin skirt prices were \$2.74/kg lower than year-ago levels, and 58¢/kg easier month-on-month at \$6.83/kg.

Rumen pillars remained firm this month, with heavy weight product making \$13.77/kg, up \$1.07/kg month-on-month and \$3.34/kg dearer than April 2016.

Tails and Tendons

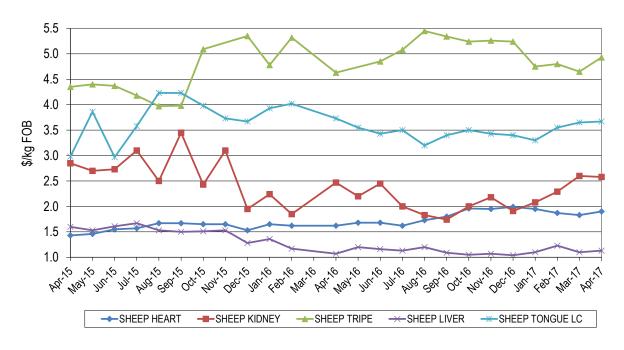

Figure 5: Trends in tail and tendon prices

Halal tails eased slightly, down 12¢/kg on last month's price but up 40¢/kg year-on-year, averaging \$8.07/kg. Halal tendons averaged \$6.35/kg, 37¢/kg lower than last year and down 95¢/kg month-on-month.

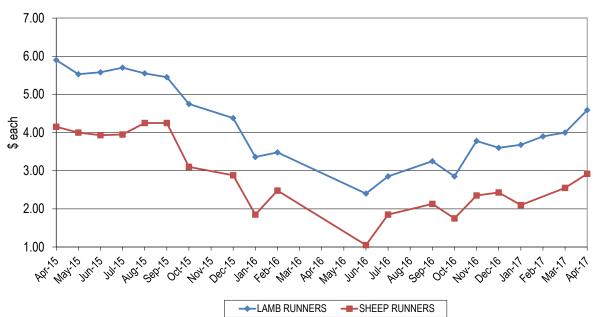

Sheep Offals

Sheep hearts averaged \$1.90/kg, up 7¢/kg month-on-month and were 28¢/kg dearer than April 2016. Sheep livers averaged \$1.13/kg, which was 3¢/kg better month-on-month. Kidney prices returned \$2.58/kg, down just 2¢/kg on last month's price. Sheep tripe averaged \$4.93/kg, up 28¢/kg month-on-month. Sheep long cut tongue averaged \$3.67/kg, up 2¢/kg month-on-month.

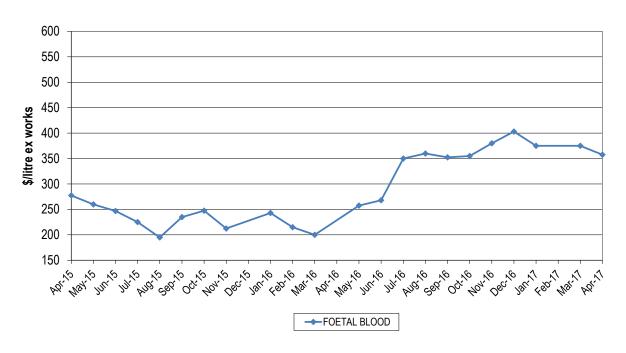

Figure 6b: Trends in runner prices

Lamb runners averaged \$4.59/piece which was 59¢/piece above the price last month. Sheep runners also lifted, averaging \$2.92/piece for April, up 37¢/piece month-on-month.

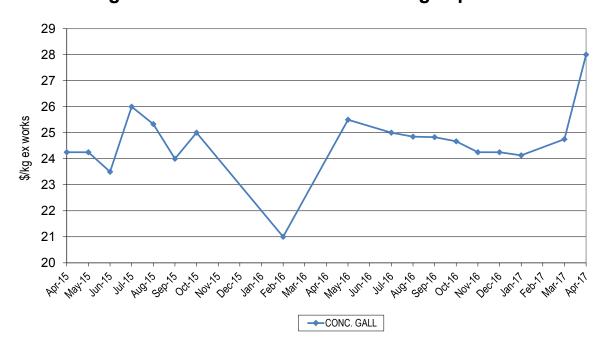

Pharmaceutical products

Figure 7a: Trends for foetal blood prices

Foetal blood remained firm averaging \$357.50/litre, however it was very lightly reported, with buyer indications somewhat below seller expectations.

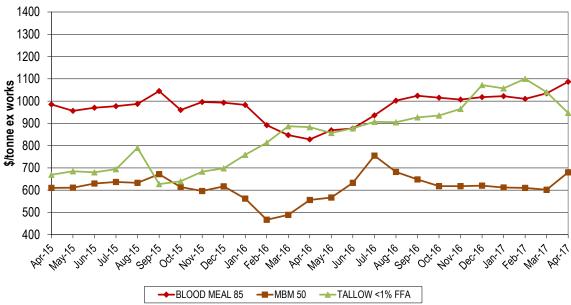

Figure 7b: Trends for concentrated gall prices

Concentrated gall averaged \$28.00/litre, up \$3.25/kg month-on-month and is the highest price recorded.

Rendered Products

Figure 8: Trends in rendered co-product prices

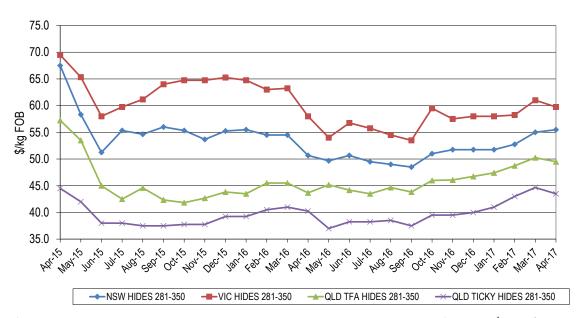

Meat and bone meal (MBM) prices were considerably firmer this month, with the price for 50% protein averaging \$680/tonne, \$78/tonne above the price last month and \$124/tonne dearer year-on-year. Blood meal prices continued to lift, averaging \$1,087/tonne ex-works, which was up \$52/tonne on last month's price and \$259/tonne higher than last year. Reduced production due to shortfalls in cattle supply is assisting in keeping prices firm.

Tallow prices continued to follow a downward trend. The price of palm stearin eased another \$110/tonne during the course of the month and certainly gives an indication of the future for the tallow market. April price for 1% FFA tallow averaged \$947/tonne, down \$93/tonne on last month price but remained \$64/tonne higher year-on-year.

Hides

Figure 9: Trends in hide prices (East Coast Ex Works)

Local prices for hides remained almost even month-on-month with variations of 50¢ to \$1.25/piece across the board. The biggest differences from year ago levels has occurred for the heavier end of NSW Hides and all weights of Queensland TFA hides, these being around \$5.00/piece firmer whilst the heavy end of Queensland ticky hides are firmer by around \$3.00/piece.
